

## Senior Project Manager

Location: Saskatchewan, Manitoba, Alberta, and Ontario Branches (remote or in-office options)

Work should be so much more than just a job you do to earn a paycheque. And at SGI, it is.

We offer the essentials – a competitive salary, great pension, and excellent employer-paid family benefits. But we also provide opportunities. The opportunity to do work that makes a difference in your community. The opportunity to expand your professional skills and grow your career. And the opportunity to come to work every day to a job you're passionate about and that leaves you feeling happy and fulfilled.

Now that we've (hopefully!) sparked your interest, here's some good news: we're hiring!

We're looking for a Senior Project Manager who has a way with building relationships.

We hope you consider applying if you:

- Can facilitate, lead, and drive tasks and projects.
- Adapt to change and problem solving.
- Are adept at project management.
- Want to leverage your leadership skills for good – like actively supporting SGI's culture, expanding your own learning and supporting your colleagues as they do the same.

Typically, these skills are gained through a **four-year degree in** a relevant field of study, like **Business, Information Technology, or Mathematics and Applied Science**, as well as a **Project Management Professional (PMP) designation**, and **eight years of experience as a Project Manager**. We know the confidence gap and imposter syndrome can get in the way, so please don't hesitate to apply. We'd love to hear from you!

## What else do we offer?

Our website (<https://sgi.sk.ca/starthere>) gives a run-down of the many perks of working with us, including:

- **Work-life balance** - How does an extra day off every two weeks sound?/How does an additional three weeks off a year sound?
- **Personal development** - We invest in our employees. We provide leadership and employee training, and provide education funding, to support your self-improvement goals and keep our teams thriving.
- **A positive, healthy work culture** - Work culture can be the reason an employee stays or leaves a job. At SGI, we've worked hard to develop a culture we're proud of. And we continue to invest in our culture through training to make sure that our actions (and culture) reflect our corporate values: caring, passion, innovation, and integrity.
- **Awesome people** - Seriously. We hire the best people and you get to work with them. At SGI, you'll find the work family you didn't know you needed.

We strive to be the kind of employer that employees recommend to a friend. We want our employees to want to come to work, and we look forward to your application!

**Remember, the position closes Tuesday, March 28, so submit your application online (<https://sgi.sk.ca/careers>) by 11:59 p.m. Saskatchewan time.**
